Brake Testers

We offer an extensive range of Brake Testing Solutions from leading European brands such as BM Testing Equipment. Allowing you to have access to simply the best Passenger and HGV Brake Testers available on the market in the UK.

BM4010
FROM ONLY
£62.87
EXCL. VAT
PER WEEK

Part Number: VTBM4010-C4-ATL

Class: 4

- Strong flush-floor in-ground Brake Tester for light Vehicles with axle loads up to 3,500kg
- Engineered in Denmark for superior quality and reliability
- Fully approved by the DVSA
- Seamless integration with intuitive, connected FlexCheck software
- ATL (Automated Test Lane) ready for streamlined operations
- Optional Class 7 capability for heavier vehicles

Full purchase price **£11,995**

BM7110
FROM ONLY
£62.87
EXCL. VAT
PER WEEK

Part Number: BM7110

Class: 4

- Accepts axle load up to 3,500kg
- Allows for split bed installation over an inspection pit
- Large range of options that allows for a customised configuration
- Precision-engineered in Denmark for exceptional build quality
- Fully approved by the DVSA for compliance and peace of mind
- Intuitive and fully connected FlexCheck software for streamlined diagnostics
- Suitable for OPTL (One Person Test Lane) testing to enhance efficiency

Full purchase price **£11,995**

BM20200
FROM ONLY
£209.64
EXCL. VAT
PER WEEK

Part Number: BM20200

Part Number: BM20200

- A mobile Brake Tester for Vehicles with axle load up to 20,000kg
- Ideal for Commercial Fleet Owners looking to save money on external Brake Testing costs
- Precision Danish engineering ensures long-term reliability
- Intuitive, fully connected FlexCheck software for streamlined operation
- Includes tablet interface enabling efficient one-person testing

TPMS

Tyre Pressure Monitoring Systems like no other. Bartec believe that safer roads start with smarter driving. One essential element of road safety is ensuring your Tyres are in top condition - and that's where Bartec Tyre Pressure Monitoring System (TPMS) tools come in! Proper Tyre Pressure helps maintain optimal grip, reduce fuel consumption, and prevent premature wear. But did you know it can also help prevent accidents? By using Bartec TPMS tools, you can monitor Tyre Pressure accurately and reliably, keeping local drivers safe on the road.

Vehicle Lifts

ATH Four Lift 55P

Product code: 650023

- Electro-hydraulic 4-post lift with quick lift unit and load-dependent lowering function
- Central operating unit, including unit cover
- ATH Four Lift 55AP: Level running rail with integrated wheel alignment kit
- ATH Four Lift 55P: level running rail, optional wheel alignment kit
- Precisely levelable notch and rail system
- Safety Control: Electropneumatic safety locks that automatically unlock with lifting and lowering
- Safety Lock: ability to lock the load on to the safety mechanism

ATH Flex Lift 30

Product code: 680008

- High-quality and robust short-stroke lift with hydraulic drive, almost maintenance-free
- Powerful hydraulic unit (230V / C16A)
- Very low drive-over height of only approx. 105 mm
- No electrical limit switches, protective hose over the hydraulic lines
- Mechanical synchronization through cross connection and double hydraulic lines
- Full lifting power from the lowest point Emergency lowering system for lowering in the event of a power failure
- Ideally suited for paint and Bodyshops, repairs, Brake and Tyre services

ATH Frame Lift 30FZ

Product code: 630311

- High-quality and robust double scissor lift with hydraulic drive, almost maintenance-free
- Powerful hydraulic unit with load-dependent lowering valve
- Very low drive-over height of only approx. 105 mm
- Suitable for installation and use on the floor and optional floor-level installation (in ground kit)
- Synchronization control via double master and slave systems, safety light barriers and double hydraulic lines
- Full lifting power from the lowest point due to mechanical swivel system
- Emergency lowering system for lowering in the event of a power failure, CE-Stop and acoustic lowering signal
- Ideally suited for paint and Bodyshops, repairs, Brake and Tyre services

ATH Cross Lift 35 OG

Product code: 631014

- High-quality and robust scissor lift with hydraulic drive, almost maintenance-free
- Powerful hydraulic unit with load-dependent lowering speed controller
- With wheel-free jack (load capacity: 3.5 t, lifting height: 430 mm), optional wheel alignment kit with cut outs for swivel plates at the front and mechanically lockable swing plates at the rear (incl. at ATH-Cross Lift 35 OGA / UGA)
- Pneumatic unlocking of the safety locks, CE-Stop and lowering acoustic signal
- Emergency lowering system for lowering in the event of a power failure, safety synchronization monitoring via light barrier
- Ideally suited for inspection, repair and test stations for driver assistance systems, optionally for wheel alignment

- Gemcal are not a sales team, they simply offer services for your Garage

30% of MOT's Fail due to faults around the wheel

Invest in the Active
Plus WS Wheel Aligner
and Cater for your
Customers' needs

ARC76
FROM ONLY
£41.91
EXCL. VAT
PER WEEK

FULL
PURCHASE
PRICE
£7,995

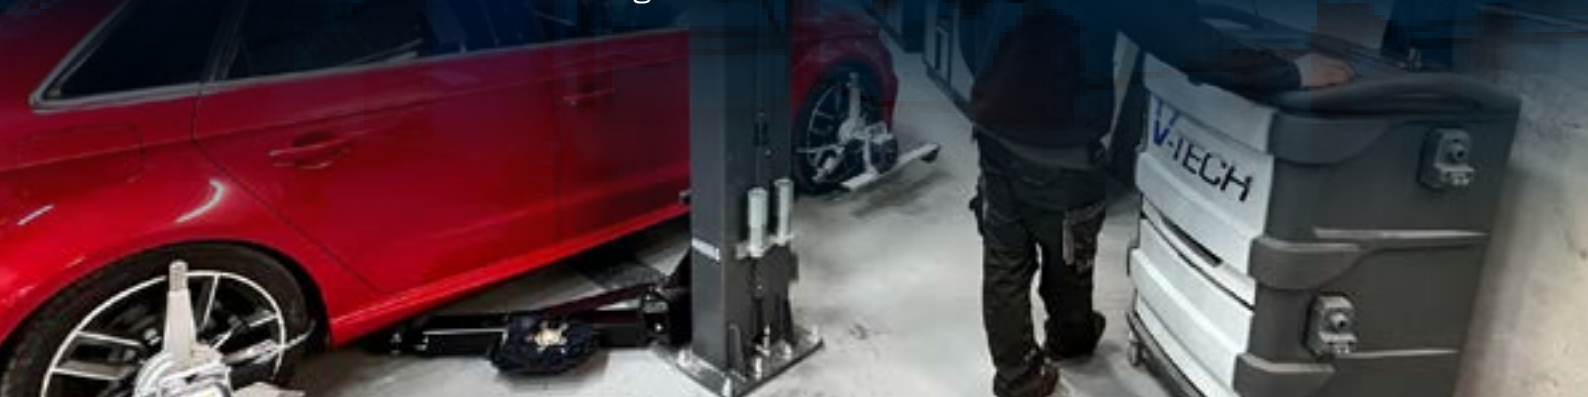

Do 1 alignment per week and it'll pay for your machine!*

Based on UK MOT fail rates 30% of those fails are due to issues from around the Wheel (Tyres 7%, Suspension 13% and Brakes 10%). Suspension and Tyre fails can require an alignment after the repair has been completed.

Therefore, you can expect an average of 2 Wheel alignments required each week from MOT fails based on recent stats.

This means that for less than the price of 1 Wheel alignment service per week you can keep all repairs in house with our fantastic Active Plus WS Wheel Aligner.
