R134a (Old Gas) AC Service Machine

Part Number: V-545

The VeriCool V-545 R134a AC service machine is built for busy workshops and can recharge cars, vans, and motorhomes. It features a large touchscreen, fully automatic operation, and an intuitive interface. The V-545 streamlines your workshop operations with comprehensive, easily accessible functions. Built-in service reports and an extensive vehicle database ensure reliable air conditioning servicing.

7" Touch Screen Interface: Easy to navigate with an easy-to-read graphic display, making the machine simple for any technician to operate.

High-Efficiency Recovery: Maximises refrigerant savings and protects the environment by reclaiming nearly all gas from the vehicle.

Best for workshops servicing older vehicles (pre-2017)

R1234yf (New Gas) AC Service Machine

Part Number: V-580

The VeriCool V-580 R1234yf AC Service Machine is essential for modern workshops. It simplifies maintenance with an integrated database and printer. It supports R1234yf refrigerant now in today's vehicles. The machine offers efficiency and reliability to keep your workspace up to date. Features like the leak-test function, dual-ventilation system, and over 95% recovery efficiency reduce refrigerant buildup and prevent leaks. The V-580 is an essential tool for modern air conditioning service.

10" Interactive Touchscreen: A clear, user-friendly digital command center makes complex AC servicing simple and accessible for all skill levels.

Best for workshops focused on newer vehicles (2017 onwards)

Dual Gas (R134a & R1234yf) AC Service Machine

Part Number: V-549

The VeriCool V-549 Dual Gas AC Service Machine is built for today's garages and workshops. It works with both R134a and R1234yf refrigerants, so it suits nearly any vehicle. The simple interface makes it easy to use, and the built-in database and printer help with keeping records. Its sturdy design means it runs efficiently and reliably, making it a valuable tool for air conditioning service.

10" Touchscreen: Large, crystal-clear digital interface with intuitive service prompts makes operation fast and error-free for technicians.

Deep Recovery Mode: Reclaims almost all refrigerant, significantly reducing gas waste and increasing your profit margins on every job.

Best for mixed workshops servicing both older and newer vehicles

VGE 4 Tonne Hydraulic 2 Post Lift

Part Number: VGE-T40E/B

- With a 4-tonne lifting capacity, you can handle cars, SUVs, 4x4s, and light commercial vans. Fewer restrictions, more flexibility. This means you can say yes to more jobs and turn away less business.
- One lift, most vehicles, every day. You get efficiency and peace of mind. No more worrying about overloading or turning away work. Let's make your workshop run more smoothly and safely.
- Two-stage telescopic arms and adjustable lifting pads mean you can handle anything from compact cars to tall vans. Safety is built in from every angle. Overload valve, hydraulic parachute valves, height-limit switch, and door-protection rubbers.
- Dual hydraulic cylinders and a direct-drive system mean both sides lift evenly, every time. No more uneven lifts or safety worries. Just balanced, stable raising.
- Automatic dual-point electromagnetic locks engage and release at the push of a button. No manual handling, no wasted time. You get faster, safer operation and fewer errors. That's how you keep your workflow moving.
- Built tough with a heavy-duty welded structure, powder-coated finish, and galvanised moving Parts. You get durability, low maintenance, and a lift that keeps performing, day in, day out. Invest once, benefit for years.
