VGE 3 Tonne Full Rise Scissor Lift

Part Number: VGE-B30Y

The VGE B30Y 3-tonne short platform, surface-mounted full rise scissor lift is ideal when you want full-height access without the disruption of lengthy installations. It combines a 3,000kg capacity with a 1,850mm lifting height for comfortable underbody work, while staying practical day-to-day thanks to a low drive-over height.

- 3,000kg lifting capacity: Lifts a wide range of cars and light vehicles for everyday service and repair work.
- Full-rise lifting height: Comfortable working height for inspections, servicing and underbody repairs.
- Surface-mounted installation: No groundwork required. It's easy to add full-height lifting without major building work.
- Low minimum height: Easy drive-over loading and suitable for lower vehicles.
- Pneumatic lock release: Speeds up operation and reduces manual effort when releasing locks.
- Electromagnetic lowering: Controlled, smooth lowering, even with constant day-to-day use.
- Height limit switch: Helps protect equipment at maximum lift height and supports safer operation.
- Descent alarm: Improves awareness for technicians working around the lift.
- Extendable platform: Better flexibility across different vehicle sizes and lift points.

Built for busy workshops that want full-rise access in a compact footprint

VGE 4 Tonne Hydraulic 2 Post Lift

Part Number: VGE-T40EX

- 4-tonne lifting capacity — Supports cars, SUVs, 4x4s and light commercial vans with ease.
- Dual hydraulic cylinders with direct-drive system — Synchronisation cable ensures both sides lift evenly. Guarantees level lifting, smooth operation, and avoids instability caused by uneven raising.
- Automatic dual-point electromagnetic lock release — Safety locks engage automatically during lifting and release at the push of a button. Faster, safer operation with no manual lock handling.
- Two-stage telescopic arms with adjustable lifting pads — Optional height extensions available for varied vehicles. Easily accommodates different chassis types, from small cars to high-clearance vans.
- Multiple safety systems integrated — Overload valve, hydraulic parachute valves, height-limit switch, and door-protection rubbers. Enhanced operator safety in all operating conditions, even in the event of hydraulic failure.
- Emergency manual lowering with adjustable descent — Allows controlled lowering even during power loss.
- Heavy-duty welded structure with powder-coated finish — Galvanised moving parts for long service life. Highly durable, low-maintenance, and resistant to corrosion.

The optimal balance of power, safety, flexibility and reliability

Prices exclude VAT

For more information, or to place an order, please call **0208 498 1363** or try the ROI Calculator at **PartsPlusGE.com**

Terms and Conditions: Prices displayed exclude VAT and are available until the 31st July 2026, are subject to change, and can be withdrawn at any time. The displayed "Per week" pricing is based upon a finance agreement for 52 weeks over 5 years, excluding VAT. Finance is subject to approval. Full purchase prices are for purchasing outright, excluding VAT. Free mainland GB delivery for orders over £100 excluding VAT, orders under this value will be charged £14.95 excl. VAT for delivery. Deliveries and installations outside mainland GB will incur additional charges, which will be calculated at the time of ordering. For more information, please contact your local PartsPlus Centre. Images are for illustration purposes only. Please note the potential return-on-investment forecasts. While the ROI potential we detail is possible, it is not guaranteed and is dependent on multiple factors. Please speak to a member of the PartsPlusGE Support Team for more details.
